

# MASTER STREAM AUTOMATIC and CONSTANT GALLONAGE TORNADOMATIC - POKADOR - AUTOKADOR

POK Master Stream monitor nozzles are extremely durable and lightweight and offer a durable, lightweight automatic or constant gallonage with great features. Machined out of high-grade aluminum alloy with the trademarked NITUFF™ finish that gives 50 microns of PTFE impregnated anodized unlike the 20 microns of standard anodized.

Available in several styles in a wide range of flow capacity. Your choice of spinning or cut teeth. Stream to wide fog and flush without shutting down. Available with threaded coupling. The standard control wheel is finished with high bright yellow with plenty of grip for ease of operation.
